The sixth large-scale exhibition at KIBLA PORTAL Mundus vadit retro opens, remaps and re-contextualizes memory and history, upon which the present and the future are substantiated. The exhibition delves into the cultural-political conglomeration of contemporaneity, into the incessant search for identity, into the perpetuum mobile of political and cultural changes. The artworks confront the tensions that kindle across Europe, both on the collective as well as the individual level. The artists and authors exhibiting in Mundus vadit retro present more than just their commentaries and reflections, but also their micro-visions and strategies of survival in the modern-day Babylon.
